

LMP IRACK 120

19" Rack Kit for 2 Mac mini, backplane, 1U

P/N
11840

PRODUCT OVERVIEW

LMP iRack 100 and 120 are enclosures for installation of (1) or (2) Mac mini in a 19" rack. Through a back panel with HDMI, Ethernet and USB 3.0 port cables can easily be plugged in.

iRack 100 is the affordable option, which also leaves space in the free half, e.g. for another 2.5" and 3.5" hard disk.

With rack rails, iRack 100 and 120 can be pulled out.

P/N 11840
