

LMP SMARTCHARGER

5-Port USB charger 5V 8A/40W

P/N
14282

PRODUCT OVERVIEW

The LMP SmartCharger allows you to charge up to 5 devices simultaneously with its 5 USB ports. The amp adjustment technology handles automatically the power distribution among connected devices so you always get the right charging power. The maximum output per port is 2.4A/12W with a total output over all ports of 8A/40W. This guarantees a smart and fast charging of your devices.

Its variable voltage input (100 – 240V) makes it the perfect companion for travel and family holidays. And the advanced safety features keep you and your devices safe.
