LMP USB-C card reader

PRODUCT OVERVIEW

The LMP USB-C card reader features an SD and microSD card slot for transferring pictures, video and data from your camera to the computer. The SD card slot can read SD, SDHC (SD 2.0) and SDXC (SD 3.0) formats and the microSD can read microSD, microSDHC and microSDXC formats.

Besides the USB-C port, it features a USB-A and Micro-USB port with OTG function, making it a widely usable card reader. It is compatible to all USB ports and Thunderbolt 3 port. The housing is made out of aluminum. The two caps help to preserve the connecting ports. The power is supplied via USB and it is Plug & Play.
